We cover what you REALLY need to know about mobile locksmithing

INTRODUCTION

The UK Locksmiths Association Training Course is an intensive locksmithing course designed to give the maximum learning opportunities in the minimum time with minimum expense. The course is a hands-on learning style that covers all aspects of the industry needed to run your own business, work for an employer or even just learn the skills to satisfy your own curiosity.

The course starts with the assumption of the student having no previous knowledge within the field and will progress at a steady yet comfortable pace through different techniques, tools and equipment to have you confident in your chosen Industry in no time. We even give you full comprehensive course notes and the UKLA drill point manual to make life easier.

The courses have an excellent ratio of tutors to students, meaning you can have confidence in the fact that expert tuition and guidance will be with you at all times.

All of our trainers are current professionals in the industry and have many years experience before achieving and maintaining the high standards set by the UKLA to become eligible to teach on our course.

COURSE DURATION

Courses run on a weekly basis from 0830 hours to 1530 hours (times may differ depending on how the class get on) Monday and Tuesday for the 2 day course with the Wednesday being added on for the 3 day course.

You are more than welcome to visit our purpose built training centre at an arranged time before booking. This will enable you to book with confidence knowing that you will be receiving your training from the industry professionals. This Service is 100% free of charge.

We cover what you REALLY need to know about mobile locksmithing

COURSE SYLLABUS

The 2 day course is our starting point and covers the following areas:

- Stripping down and re-assembling of both cylinder type and mortice type locks.
- Rim cylinder lock picking.
- Mortice lock picking.
- Wafer Lock picking
- British Standard Insurance approved lock picking
- UPVC lock mechanisms and opening
- Up to date lock opening tools including: Letterbox kits, Slip cards, Electric pick guns, Mortice jigs, Quicksnaps, Ingersoll drop down tools, Rimmer mortice picks, Jigglers, Manual picks, Tension tools, Key extractors, Plug spinners, plus many others.
- Rim cylinder lock fitting
- Euro cylinder lock fitting
- Mortice lock fitting
- Cylinder and Mortice key cutting
- Garage door locks
- Window locks
- Filing cabinet and other types of cam locks
- Advice On how to get private work
- Advice on how to set up your own mobile locksmith business

Also included in the 2 day course:

- ONGOING FREE 24/7 helpline.
- FREE Food and refreshments available throughout the day.
- Course notes and information pack for everything that has been covered.
- Comprehensive full colour drill point template manual.
- A list of companies who can supply you with sub contracting work.
- A list of Locksmith tool and stock suppliers with information on setting up accounts.
- The opportunity to become a member of the UK Locksmiths Association.
- Exclusive discounts for ALL students purchasing tools and stock.

Our three day course is an extension on the above with inclusion of gaining access and picking open Insurance Approved mortice locks (like Chubb locks). You will be fitting locks, drilling through the locks and picking them open using various techniques. The cost of the third day also includes the locks you are working on so you can take these away with you to practise your newly acquired skills in your own time and leisure. This will be a major asset for confidence building and heightening your skills

We show you how to drill open a lock the correct way so that the key will still work it.

By covering some of the tougher locks on the market on the third day you will gain not only knowledge but great confidence in your abilities to over come any lock you may come up against. Highly recommended!

We cover what you REALLY need to know about mobile locksmithing

WHY UKLA?

In order to give a full answer to this issue it is necessary to give a brief history of the organisation itself. The UKLA was launched by existing locksmiths to address the issue of the industry having no governing body. With no formal government recognised qualification in existence in our trade (i.e. corgi for gas work) there was in some areas a serious skill shortage and no way for the consumer to distinguish between the professional or the less so. The UKLA was set up to help the consumer but by doing so also identified the issue of the varying levels of locksmith training on the market. When people were having to be turned down as members as their knowledge or skill base was not high enough they were left frustrated by the lack of professional training around.

The UKLA are long established and have produced many Locksmiths nationwide as well as having trainees come from abroad to attend our course.

The UKLA training course has the benefit of being an intensive training course meaning that after just one course you are ready to start trading (we do not insist on multiple expensive training courses learning one subject at a time).

We teach with up to date tools and equipment utilising the newest techniques despite the expense to ourselves of constantly renewing our teaching tools we can show you the latest tools on the market knowing that your skills are up to date.

We have a proven track record with our teaching techniques and will never try to teach from a DVD!!

On completion of the UKLA course you will be granted the UK Locksmith Association Certification. This is completely recognisable globally. There is no locksmith certification or qualification higher or better than ours.

We cover what you REALLY need to know about mobile locksmithing

NEW CAREER OPPORTUNITY

Locksmithing is a career that can be very rewarding both lucratively and in satisfaction. By looking at the average road in the UK you will have roughly 100 properties each usually with a front door (often with a primary and secondary lock) a back door with a lock as well as window locks, sheds, garages etc. Eventually a lock as with all mechanisms will need replacing they may fail, become out dated or just need replacing with new tenants wishing to make sure there are no other keys in circulation. Keys may become lost or broken. As a locksmith you will be the solution to these issues by fixing, fitting or replacing the locks. You will be able to make the client enjoy the security afforded by their premises. In the case of intrusions to property as in burglary you will often find that not only the home involved will require your services but also adjoining properties and neighbours will also want to “beef up” their security.

Depending on your area charges range from **£50-95 per hour labour + parts and materials**. If you decided to attend an out of normal hours call out (often an emergency) then you will be justified to charge double or treble depending on the circumstances (evenings, weekends or bank holidays demand a higher premium).

After instruction on the use of key cutting machines you will see how easy it is to cut both mortice and cylinder keys. This is an extremely profitable part of the business. Some mortice (like a Chubb) key blanks cost under 30p and you could charge between £5.00 - £12.00. Cylinder (like a Yale) key blanks cost 10p and you can charge between £3.00 - £9.00. Not bad for two minutes work.

Final pricing is of course up to your discretion but we do discuss costing and prices on the course and give example rates that we would expect for our services.

With little overheads (normally just a van, tools, stock and phone) you can see becoming a locksmith is profitable. **We have taught students who are now earning over 60k pa.**

Testimonials

We receive excellent feedback from students who have attended our course and we personally guarantee you will not leave disappointed.

"This has helped me to set up what is now a fantastic business that provides me a fantastic income", "Great value for money" "The best thing I have ever done and I would recommend it to any body" – Nicholas Watts KEY WATTS LOCKSMITHS

"Thanks once again for the great course", "Leant lots enjoyed it loads and I would not hesitate in recommending the 3 day course" – Glenn Cooper GLENN COOPER LOCKSMITH

"You were thorough, enthusiastic and encouraging, inspiring confidence that lasts", "The most excellent, interesting and hands on course attended" "I highly recommend the three day course" – Rod Stone STONE LOCKSMITHS

" I didn't expect to learn as much as I did" " The three days were relaxed and informal and you put us at ease and kept the sessions lively" – Stephen Ruth STEPHEN RUTH LOCKSMITH

The UKLA have many many unsolicited testimonials available for your perusal. We have a selection available as direct scans on our website as well as more available on request. – yours could be the next!!

UK LOCKSMITHS ASSOCIATION MEMBERSHIP

After completing your training with us you are eligible if you choose to become a member of the association. Our membership registration is only £175.00 (including VAT) and £50.00 a year after the first year. Join the UK Locksmiths Association and attain tremendous value for money including:

- Be a member of the “Trusted and Vetted” UK Locksmiths Association
- Receive the UKLA I.D Card
- Receive two UKLA 12” Logo’s for your vehicle
- Use of the Logo for any of your advertising, cards, headed paper etc
- Receive a logon and password for the website
- Receive 12 months FREE advertising on the website

The website has loads of information regarding Locksmithing including newsletters about the industry, member of the month, tips of the week, find a locksmith, members chat forum, links to Locksmith suppliers providing special deals plus so much more.

You will be able to advertise on the website. This will give you the opportunity to get work - a lot of work. We are giving you 12 months for free which could earn you a considerable amount and will no doubt pay for this course within just a few jobs.

Having an I.D card with the “trusted and vetted” UK Locksmiths Association logo on it can help you get work from the likes of Letting and Estate Agents. Once you show them your I.D you are no longer just a “Joe Bloggs Locksmith” but you are someone who has been vetted. This means that if anything was to go wrong they can contact the Association. This gives them complete peace of mind and gives you a far greater chance of getting the work.

- YOU CAN PURCHASE TOOLS AND STOCK FROM US ON THE DAY IF YOU WISH AT WHOLESALE PRICES.
- YOU CAN PURCHASE THE "UKLA STARTER PACK" WHICH CONSISTS OF THE MOST POPULAR LOCKS ON THE MARKET AT WHOLESALE PRICES.

FREQUENTLY ASKED Q&A

Q. Will I be able to start as a Locksmith immediately once the course has finished?

- A. Yes definitely. By the end of the two days you will be opening domestic and commercial locks such as Chubb, Yale, Union, Era, Legge, Sterling, Bird, Willenall, Walsall plus MANY more. You will be changing locks and fitting them too as this is the most common work for a locksmith. Take a look at the subjects taught and you'll see we cover an enormous amount.

Q. How Much are tools?

- A. Tools start from £5.00. If you want all of the Locksmith tools you are looking at approximately £600.00. We sell everything including clothing, Tool boxes, Drills, Key cutting machines and Locks.

Q. Why is this course good value?

- A. £595.00 and £895.00 (Including VAT) is excellent value for a locksmithing course. We know of other courses in the UK who charge over £1,200.00. We feel, and going by what our students tell us on the anonymous questionnaire that they are given at the end is that our course is of the highest order. Lunches are included and all students can help themselves to as much food, drink and biscuits as they can handle.

We have been on other locksmith courses just to see what they are like and to see if there is anything we can add to our own course so this ensures, in our opinion our one is by far the best in the UK.

Our Helpline is worth the money on its own. We respect all our students as we once started out in business and we know that questions need to be answered so we are here 24 hours a day, 7 days a week. The helpline covers anything from "What do you think of this lock pick?" to "How much would you charge to fit this lock?" We are ALWAYS more than willing to help you and are ALWAYS available.

Q. Will I get a qualification?

- A. The UKLA Certification is recognised globally and you can join the **UK Locksmiths Association** which brings fantastic benefits to you and your company such as FREE advertising on the internet and use of the trusted and vetted UKLA Logo. This will help you seal large contracts as well as standard work from the public, estate agents, contractors etc etc. You will earn your money back extremely quickly on this investment.

Q. Do Locksmiths earn good money?

- A. **YES!!!** All locksmiths have their own prices but as mentioned earlier you can earn £50-£95 per hour labour + parts + materials during "normal" working hours. A high majority of jobs can take just a couple of minutes so yes it can be extremely beneficial financially. If you attend evening jobs then you'll be earning EXTREMELY well. There are also huge mark-ups and profits on locks for which we discuss in greater detail on the course.

Q. How soon can I get booked in?

- A. Courses are run weekly starting Monday's. This gives you a very short waiting time and we can normally get you on the course dates of your choice. Check out the availability for the dates you require by phoning us on 020 8590 7111 now.

Testimonial

"Cyclotron / Daryl" <cyclotron@freestateprojects.org>

Fri, 7 May 2010 01:30:28 +0200

Hi guys, here's that testimonial for you.

"I have found that the course taught by Adam and Chris is of a very high standard as I have been able to become a successful locksmith in South Africa thanks to it. Pretty much everything is covered to provide you with the confidence you need to start tackling jobs and backup, if needed, is there. Thanks guys!

Daryl Fuchs - Daggafontein, South Africa"

UKLA course Testimonial

21st January 2009

Dear Adam, Chris, Tom and David,

The course was extremely thorough and well explained. The hands on approach definitely works and you guys are always on hand during and after the course for any problems you may have.

In my first week of trading after the course I managed to earn £700. Not bad nearly making back my course fee in just 7 days.

I cannot thank you all enough and I would recommend anyone to do your course.

All the best and no doubt I'll pop in next time I'm passing for another jam doughnut!

TESTIMONY

For the Attention of UK Locksmiths Association

This is to show my appreciation and gratitude to UK Locksmiths Association. I attended a three day course which virtually changed my career path. The way Mr Adam Jackson and Mr Chris Talbot conducted the Locksmith Course was so knowledgeable and understanding helping me to understand the workings of all kinds of locks. Everything was taught in a manner which I could understand and relate to. The way they taught me the practical side of picking locks was made to look so easy and I was able to pick up the skills quite quickly. I would also like to say they showed a lot of patience while teaching the course and they made a point of making sure that I understood everything.

Since I did the course I have set up my own company and I now have eight employees and three vans on the road.

I would like to take this opportunity to thank Mr Adam Jackson and Mr Chris Talbot for giving me the confidence and the skills and the support to set up on my own.

Thanking you.

Aman Virdee

7th May 2008

Re 3 day course

Just a quickie to thank you for a fantastic course that I learnt so much in. More than I could ever imagine doing in 3 days. It was fantastic.

As you know I came all the way from Germany just to do the course due to the amazing reputation that you have and you truly met my expectations in every way possible.

I looked at other course that place 20 people on a course and make them watch DVD's on how to pick locks! I'm over the moon that I chose yourselves and was hands on and the course notes and the Drill Point manual is spot on with everything covered.

As I'm leaving the armed forces and undertaking re-settlement I would recommend anyone in the same position to go onto the course. I will be setting up abroad and I cannot thank you enough for the knowledge that you have supplied me with.

I'll be keeping in touch with you and if you ever want to use me as a recommendation I'll be more than happy to oblige.

Regards

S/Sgt Paul Jones
R/C

I thought that the course was great value for money as I picked up a great deal of knowledge. This has helped me to set up what is now a fantastic business that provides me a fantastic income.

I paid for my course in two jobs, which when you think that the jobs took 10 mins and 20 mins respectively it is great. I am now an employer and getting more and more successful each week.

All in all I would like to say that going on the UKLA course is the best thing I have ever done and would recommend anybody who is interested to go and do it, if you live in the Surrey area don't do it!

Membership Renewal

Please find enclosed a cheque for £50 for our Annual Membership.

I would like to take this opportunity to thank you once again for sharing your knowledge and experience within your course. I had expressed that I was not a handy man, always worked as Machine operator but with your encouragement, I continued with a career change.

This advice, encouragement and continuous support has worked. My business is slowly building up, even though the slow economical state that we are experiencing at this given time.

Kind Regards
Russell Maslin
