

## WHY BE A MEMBER?

- Being a member gives your company the **appearance of professionalism** that your company needs to be a success in business.
- When in contact with external companies such as Letting Agents, Estate Agents, key cutters, Councils, Housing Associations, Builders Merchants, sub contractors etc. or even the every day customer it is important that they see you as someone they can trust. By being a member it gives them **the confidence to trust you** to get the job done efficiently and at a price that it is fair.
- It gives the customer the confidence that you will be there when you say you will be there. Too many trades persons are not **reliable** enough the “Trusted and Vetted” on our logo tells them you are the person for the job.
- By having the UK Locksmiths Association “Trusted and Vetted” Logo you demonstrate someone who is at the **top of your profession**. The Logo can be on your business cards, headed paper, invoices, vehicle, flyers, shop front, any adverts and of course on your corporate clothing (which you can purchase through us).
- The customer can have trust that if there are any problems **they can contact the UKLA**. By having the UKLA as a backup the customer knows they won't be overpriced and if problems will occur as they can simply contact us.
- All members are vetted with C.R.B. checks giving the customer extra **peace of mind** and the trust that goes with it.
- **We can mediate** in the event of any problems at times a customer has felt they have been overcharged yet feel appeased when the Association point out contributing factors to fair charges.
- **Having a membership ID offers comfort to the client**. After a home invasion or dealing with elderly / female clients putting customers at ease with the fact you are who you say you are can make a big difference.
